EDUCATION

Computer Science @ Engineering

Santa Clara University

01/2024 - 01/2028 | Santa Clara, CA

High School

Oakwood School

01/2009 - 01/2024 | Morgan Hill, CA

EXPERIENCE

ACM Member

Association for Computing Machinery

2024 | Santa Clara, CA

- Actively participated in ACM events, hackathons, and workshops, collaborating with board members to enhance technical skills and promote innovation in computing
- Contributed to organizing ACM's outreach initiatives, including coding challenges, guest speaker events, and networking opportunities
- Eager to bring new ideas and initiatives to the table, enhancing the organization's impact within the tech community and beyond

Remote Office Worker

Morgan Hill Psychiatry

05/2020 - 09/2024 | Morgan Hill, CA

- Worked for private psychiatric practice
- Completed remote tasks such as typing dictations, organizing documents, and scheduling appointments with patients
- Developed necessary skills such as organization, time management, and communication

Cashier

High and Mighty Pizza Joint

08/2024 - 09/2024 | Gilroy, CA

- Strengthened leadership and interpersonal abilities to a newly opened business
- Mentored and encouraged newly employed high schoolers to step out of their comfort zone to develop new skills as I did
- Taking orders, communicating with chefs, distributing food to customers, and maintaining a clean, positive environment for everyone in the restaurant

Cashier/Server

Nick the Greek

01/2023 - 02/2024 | Gilroy, CA

- Further developed leadership and interpersonal skills in a collaborative environment
- Worked most shifts alone, maintaining the cleanliness of the restaurant and balancing online orders with in-person customers
- Overcame challenges with unprofessional management and learned to work under pressure through difficult circumstances

Deli Cook

Palmerino's

02/2022 - 08/2022 | Morgan Hill, CA

- Demonstrated exceptional customer service and guest relations skills, ensuring a positive dining experience
- Managed multiple tasks efficiently, taking orders, serving food, and handling transactions accurately
- Collaborated with team members to ensure smooth restaurant operations during busy periods

Teacher

America Taekwondo Center

2018 - 2022 | Morgan Hill, CA

- Kukkiwon Certified 2nd-Degree Black Belt
- Attended several leadership workshops and seminars throughout 12-year career
- Spent months training as an assistant, developing leadership qualities
- Began teaching classes independently, highlighting dedication, discipline, and perseverance

PROJECTS

Amber Search AI

AWS x INRIX Hackathon

11/2024

Developed an AI-powered system as part of a 3-person team during the 2024 INRIX x AWS Hackathon to analyze traffic camera footage in response to Amber Alerts. The system used AI to identify and match vehicle make, model, and color to descriptions in alert. Built a front-end website for manual input and processed camera images with Claude AI and AWS tools. Placed 11th out of 30 teams, reaching the finalist stage and showcasing AI's potential to enhance public safety and law enforcement response times.

Fantasy Fighting Game

Los Altos Hacks

04/2023

Began developing a fantasy game in Java allowing users to choose from a selection of obscure historical figures. Used inheritance to assign unique qualities and "powers" to characters, simulating fights with health and power variables. While the project was not completed, I gained valuable experience in object-oriented programming and game logic development.
